From Rosie Brennan, Parksprings Care Home, Motherwell, Scotland.

Hi Mike

We are all thrilled, delighted and totally amazed at the progress our wonderful Parksprings balloon achieved in the race from Tokyo .

It was so exciting - updating all the families and friends on our Parksprings Face Book page, sharing news with the residents and all the staff. We all got so excited Resident Mary and staff Marie started blowing on balloons in a bid for our balloon to go faster.

Guess what, it must have worked as we joined the race in position 80 and then we just kept moving in the right direction. We did have a few wee hiccups when we went backwards and a few emotional moments, but it was great cause we then went forward. Never in our wildest dreams did we think we could and would achieve 2nd position.

The race created so much fun and excitement and just gave everyone a wee spark and was a great talking point with young and elderly. It was really interesting as well. Coming 2nd was fabulous , staff cheered, and we are all looking forward to our wonderful prize.

The residents have received the Apple iPad and are delighted and looking forward to using it in lots of the activities at Parksprings.

Kind regards

Rosie Brennan
